

In addition to the New Delhi leg, launch sessions of the bizhub PRESS C1100/C1085 were organised in four other major Indian cities – Mumbai, Bengaluru, Kochi and Kolkata. Konica Minolta Business Solutions India along with its distribution partner Monotech Systems Limited introduced the series in Mumbai where gathered an audience of 150 printers rushing from Gujarat, Maharashtra, Karnataka and Andhra Pradesh, who were elated to the onsite experience of the second-gen printers. Speaking at the launch, Yuji Nakata said Konica Minolta constantly strives to provide customers highly efficient world class products and solutions. “Launching of this next generation bizhub PRESS series is a step further in that pursuit,” he remarked.

TP Jain, MD, Monotech Systems Limited conveyed, “These new bizhub series have an added advantage for us. I am really thankful to our customers who managed to devote their time and came all the way to attend the launch session. It is nice to see the enthusiasm they have shown in these products and it further strengthens our confidence that bizhub PRESS C1100/C1085 will be very successful machines.” Monotech boasts of a strong nationwide base in digital printing segment with more than 950 installations of Konica Minolta digital production systems across the country.

Konica Minolta bizhub PRESS C1100/1085 have been awarded by BLI for outstanding production. Further a FograCert Validation Printing System (VPS) certificate has also been awarded to these digital printing systems in recognition of the printers' performance in conjunction with the latest Konica Minolta Color Care software when running with EFI Fiery, CREO or Konica Minolta Controller.
